EXPERIENCE

Senior Full Stack Developer

Flamel.ai

 May 2023 – Ongoing

 Cincinnati, OH

- Lead UX-focused product features, pioneer novel generative AI-enabled marketing capabilities, understand and apply cutting-edge AI advancements.
- Rapidly build and iterate product requirements, enable marketing content creation and management for social media platforms like Instagram, Twitter, LinkedIn, and Facebook.

Full Stack Software Engineer II

American Express

 August 2022 – May 2023

 New York, NY (Remote)

- Implement full stack user experiences for the US consumer products. Conduct A/B tests to determine the best converting UI elements.
- Improve and manage the code base for a Fortune 100 company's main website used by millions. Instill best practices for security, performance, and accessibility on a large scale.

Full Stack Software Engineer

Hudl

 March 2021 – August 2022

 Lincoln, NE (Remote)

- Worked on an agile cross-functional squad that powered the user engagement for the Hudl Focus autonomous cameras as well as the backend to support the fleet of cameras.
- Coded at all levels of the stack: from the front-end down to the database using React, TypeScript, Swift, C#, Python, MongoDB, and various AWS services.

Junior UI Developer

Level Five Solutions

 August 2020 – March 2021

 Overland Park, KS (Remote)

- Implemented client websites with an intentional focus on user experience and the ultimate goal to create digital experiences for local favorites, big brands, and non-profits.
- Utilized various technology stacks to satisfy clients' requirements including ASP.NET/SQL/Azure, React/Firebase, and more.
