EXPERIENCE

Senior Software Engineer, Paid Media

Yext

November 2026 – Present · Covington, KY

- Building the paid media engine that turns one brand playbook into localized, cross-channel campaigns at every location for many of the largest brands and franchises.

Chief Technology Officer

Flamel (acquired by Yext)

February 2026 – November 2026 · Covington, KY

- Direct technical strategy, product roadmap, and architecture for an autonomous AI marketing and advertising platform serving multi-location franchise brands.
- Architect Luna, an autonomous multi-tenant AI agent system with runtime tool calling, conversational workflows, and campaign execution.
- Oversee distributed advertising infrastructure across hundreds of franchise locations, ensuring strict budget pacing and financial safety controls.

Senior Software Engineer

Flamel

May 2023 – February 2026 · Cincinnati, OH

- Pioneered generative AI-driven marketing capabilities, dynamic creative generation, and multi-platform social media scheduling and analytics.
- Rapidly built and iterated full-stack product features from concept to production scale, establishing core hub-and-workspace multi-tenant architecture.

Full Stack Software Engineer II

American Express

August 2022 – May 2023 · New York, NY (Remote)

- Deployed full-stack acquisition experiences for Platinum and Gold cards to tens of millions of customers, focusing on UX, security, and accessibility.
- Ran high-volume multivariate A/B tests to optimize acquisition-funnel conversion; maintained core web apps for a Fortune 100 platform.

Full Stack Software Engineer

Hudl

March 2021 – August 2022 · Lincoln, NE (Remote)

- Served on the Hardware Team building web and mobile applications to support fleet management, configuration, and user engagement for Hudl Focus autonomous AI smart cameras.
- Partnered with video infrastructure and AI leads to deliver a custom video player and scalable full-stack services across React, TypeScript, Python, C#, and AWS.

EDUCATION

M. Eng. Management

University of Nebraska-Lincoln

2021 – 2022 · Minor in Business

B.S. Software Engineering

University of Nebraska-Lincoln

2017 – 2021 · Minor in Mathematics

AWARDS & HONORS

Inno Under 25
Cincinnati Business Courier, 2024
